**Subject:** RE: Lead and Copper

Hello everyone,

We are still waiting for the results from the lab on the water quality parameters. Once we receive that data you will be completely done for this monitoring period. All of your required paper work is completed.

Thanks, Antonia

**Subject:** RE: Lead and Copper

Dear Antonia and Ashley,

Can you please let us know where we stand. Does this information complete our requirements? We have the additional testing in Feb/March. Are we missing anything?

Darrin
