

Proposed requirements for providing services to individual homes that are currently served by well and/or septic.

September 17, 2020

1. 20 year- 2% loan
2. Cost may include all engineering, impact and applicable connection fees, labor and parts.
3. If an e-pump is required, the cost of the e-pump and installation can be included in this agreement.
4. The e-pump will remain the property and responsibility of the homeowner.
5. Only available to homeowners inside the City limits.
6. If the individual home is a part of a larger project determined by the BPW General Manager, the homeowner will pay its pro-rata share of the entire project.
